Dear Educator:

The Michigan Snowsports Industries Association (MSIA), is proud to present three experiential learning programs that help kids get outside this winter with educational, hands-on experiences on Michigan's ski slopes and trails. MSIA's "Cold is Cool" program is dedicated to improving the health of Michigan's children by offering low cost and FREE (for fourth and fifth graders) skiing and snowboarding activities. The Governor's Council on Physical Fitness, Health and Sports has endorsed these programs.

MSIA has **three ways** for kids to discover that "Cold is Cool!"

1. **4th and 5th graders ski free!!** Every 4th and 5th grade student can obtain a Cold is Cool Ski & Ride Passport, which gives them up to three complimentary lift tickets or trail passes at each of the 30 participating ski areas. MSIA charges \$20 for printing and postage. Details are on the enclosed postcard(s). Please send them home with students. Use the form below to order enough for your 4th and 5th graders.
2. A **School Ski Days field trip** to a local ski area, including a tour of the ski facility, an explanation of safe skiing techniques and the Skier's Responsibility Code, the use of rental equipment (if needed), a ski or snowboard lesson and free time on the slopes. We can even provide information on the science of making snow! Participating ski areas and program details are listed on the back of this letter.
3. **Discover Michigan Skiing & Snowboarding** is a learn-to-ski and/or snowboard program offered in January. Everyone, including adults, can learn to ski on their own at a very reasonable rate of \$20 for cross-country skiing and \$35 for downhill skiing or snowboarding at ski areas across the state. Details are available at gokimichigan.org.

Our state is a winter wonderland for three months each year. We look forward to providing some fun and experiential learning opportunities for you and your students. Details on all these programs are available at gokimichigan.org. If you have questions, don't hesitate to call (248) 620-4448.

MSIA School Ski Days Field Trip Program

Michigan Snowsports Industries Association invites all schools to take a field trip to their nearby ski area for a special experiential learning program and lots of fun outside this winter. A field trip is best suited for kids seven years of age and older.

The School Ski Days field trip program includes:

- A tour of the ski facility.
- An explanation, prior to skiing, of the Skier's Responsibility Code and safe skiing techniques.
- The use of rental equipment (if needed).
- A ski or snowboard lesson. Children will be divided by ability.
- Information on the science of making snow.
- Free time on the slopes to practice skiing and have fun!

Cost: The participating ski areas have agreed to provide the School Ski Days program as inexpensively as possible. The objective is to introduce children to skiing and snowboarding and to get them outside, enjoying Michigan's winter in a fun, safe environment. The cost varies from ski area to ski area but will not exceed \$35 per child. Some ski areas charge less. Transportation is not included. If you have children with special needs, please discuss this with the ski area, as we will do our best to accommodate all children.

Enrolling: Please call the representative at the ski area you wish to visit to plan your School Ski Days field trip.
